

WDN064SLDUK

EAN Code	8017709328436
Product Family	Washer dryer
Commercial width	60 cm
Commercial depth	Standard capacity
Installation	Free-standing
Load type	Frontal

Programs / Functions

Controls	Electronic
Programmes graphics	Written in EN
No. of programmes	14
Programmes	

Eco 40-60	Synthetic dry	Wash&Dry Anti allergy

Display

Residual time indicator delay start programme status indication

spin regulation temperature regulation

Display type

Buttons/Options

Ending in Extra rinse Spin Speed

Temperature  Prewash  Anti-wrinkle (easy ironing)

 Quick  Steam  Drying

Programme progress indicator (light) On display

End of cycle indicator (light) On display

Technical Features

Type of motor Brushless/Inverter

Electronic control functioning Yes

Programme selection knob Yes

Spin speed selection on display/LED No spin/ 600/ 800/ 1200/ 1400/ Rinse hold

Display/led for temperature regulation Yes

Polypropylene tank Yes

Basket Stainless steel

Drum capacity 65 l

Door diameter 34 cm

Door opening 170°

Automatic variable load Yes

Antifoam system Yes

Load balancing system Automatic

Easy to access filter Yes

Child lock (functions block) Control block

Anti-flood system Yes

Aquastop system Aquastop tube

Water supply Single, cold

Performance / Energy Label NEW

Supplier's name or trademark SMEG

Rated capacity washing cycle 10 kg

Rated capacity complete cycle 6 kg

Energy efficiency class (washing cycle) C

Energy efficiency class (complete cycle) D

Water consumption (washing cycle) 52 litre

Water Consumption (complete cycle) 63 litre

Spin-drying efficiency class B

Airbone acoustical noise class B

Airbone acoustical noise 76 dB(A) re 1 pW

Programme duration at rated capacity 3:58 h:min

Weighted energy consumption lavaggio	68 KWh
weighted energy consumption (ciclo complete)	306 KWh

Programme duration at rated capacity	9:30 h:min

Symbols glossary

	Acquastop: Some Smeg dishwashers are equipped with a simple Acquastop: float sensor in the bottom which is necessary to prevent an accidental leakage of water inside the appliance.		Easy Iron: this is an option which can be selected to ensure the finished laundry is left with less creases to make ironing easier.
	Variable load: In all models of washing machines is present the system of variable load, according to which the machine automatically diversifies the wash cycle and the time of operation depending on the quantity and type of laundry introduced, allowing a significant saving of water and energy power, up to 30% compared to the versions with fixed load.		Automatic Load Balancing: provides an ideal distribution of laundry in the drum. In case if the imbalance is detected, the rotation speed starts being controlled in such way to evenly redistribute laundry in the drum, and thus reduce vibration.
	Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.		LCD display: to optimize performance and simplify the use of the appliance.
	34 cm: Large loading hatch of 34 cm in diameter, makes laundry loading and unloading easier and faster with maximum ease of use.		Gentle drying: program designed to get laundry ready for easy ironing.
	This option advises when the periodic cleaning of the filters is needed, in order to avoid forgetfulness and thus guarantee the perfect functioning of the dryer over time. The convenient position of the filters makes maintenance fast and extremely simple.		Inverter technology: The evolution of Smeg's driers towards more intelligent and environmentally sustainable models has led to the choice of using Inverter technology with heat pumps, which reduces significantly energy consumption.
	Prewash: program designed for heavily soiled garments.		Cotton: For soiled fabrics in cotton
	To drain the water in the machine.		Mixed fabrics: this cycle is designed for lightly soiled laundry in a mix of cottons and synthetics, or can be used just to refresh stored items.
	Super fast 14 min.: a programme designed to wash small amounts of laundry fast, ideal for washing lightly soiled garments.		Extra rinse: The Extra rinse option: can be added to the selected programme when more thorough cleansing of special fabrics is needed.
	Shirts: a cycle to wash shirts in a short time with the utmost care, using a delicate spin for easy ironing.		Synthetics: to wash your synthetic clothes (shirts, blouses, synthetic/cotton blends, etc.). It washes with a gentle action and has a shorter washing cycle compared to the Cottons programme. For curtains and tulle, use the Synthetic 40°C programme with prewash and anti-creasing functions selected. As their meshed texture causes excessive foaming, wash the veils/tulle by putting little amount of detergent into the main wash compartment. Do not put detergent in the prewash compartment.
	Wool: this programme for wool or delicate fabrics uses slower rotations of the drum to ensure the utmost care for clothing.		Option that allow to reduce times of the selected program.

Steam Option: the steam is perfect for smoothing out creases, refreshing fabrics, neutralizing odors and releasing dirt, destroying allergens more quickly than by washing the item in water.

Energy efficiency class D
